## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election of Group I, Claims 1-8, 16, and 17 in the reply filed on 4/19/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). It is noted that Claim 18 depends upon claim 9 (part of non-elected Group II).

### *Drawings*

## INFORMATION ON HOW TO EFFECT DRAWING CHANGES

### **Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. **Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended.** The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

### **Annotated Drawing Sheets**

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. **The annotated drawing sheets must be clearly labeled as “Annotated Marked-up Drawings” and accompany the replacement sheets.**

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the “Notice of Allowability.” Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 2 and 3** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites “door is secured prior to assembly of the anti intrusion beam” which is already stated in claim 1, last three lines.

Claim 3 recites “anti intrusion beam is secured prior to assembly of the door outer panel” which is already stated in claim 1, last three lines.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1-8, 16, and 17** are rejected under 35 U.S.C. 102(b) as being anticipated by Herringshaw et al. (4,800,638).

Regarding claims 1-3, 16, and 17, Herringshaw et al. tech a method of assembling a door, comprising the steps of:

A) providing a door inner panel **18** having an outer face and an inner face, at least one functional component **42,32,48** (It is noted that the **32** is considered a “functional component” because it serves a function for the door. **42 and 48** are also “functional components” because they serve a function for the door.) of a door, an anti-intrusion beam **210**, and a door outer panel **14**;

B) assembling the at least one functional component **42,32,48** onto the outer face of the door inner panel **18**;

C) assembling the anti-intrusion beam **210** onto the outer face;  
D) assembling the door outer panel **14** towards the outer face; and  
E) securing by fixing the door inner panel **18**, the at least one functional component **42,32,48**, the ant-intrusion beam **210** and the door outer panel **14** relative to each other wherein step B) precedes step C), which precedes step D) (see fig. 2 and Fig. 1).

Regarding claim 4, note the trim panel **16** assembled towards the inner face and secured to the door inner panel **18**.

Regarding claims 5-8, note the fixing means **264** which has a primary axis perpendicular to the outer face assembled towards the outer face (col. 9, lines 54-68) non-destructively.

***Response to Arguments***

6. Applicant's arguments with respect to claims 1-8, 16, and 17 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 3726

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

***Interviews After Final***

8. Applicant note that an interview after a final rejection will not be granted unless the intended purpose and content of the interview is presented briefly, in writing (the agenda of the interview must be in writing) to clarify issues for appeal requiring only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.
